

BEAUTIFUL YET PRACTICAL...

Having a practical floor really doesn't mean you have to compromise on style, writes *Meena McDonald*

If you're looking to create something distinctive as well as functional then the Gainsborough Flooring team can provide you with an extensive range of inspiring ideas, particularly from innovative hard flooring manufacturer Karndean.

Karndean's Knight Tile Collection takes its inspiration from nature and creates designs to match a wide selection of décor schemes. They offer the look of genuine wood and stone flooring, but with many more practical benefits. Knight Tile offers a wide choice of tones, effects and design features to suit you, whatever your style preferences.

The Knight Tile Collection is extremely versatile and perfect for first time buyers, young families and multi-generation

homes. Its contemporary range allows home decorators to take on the latest trends including Scandi, industrial and country styles.

Vicky Keelan, Managing Director of Gainsborough Flooring, commented: "Karndean's Knight Tile products are so much softer and warmer underfoot than natural wood and stone flooring. They're also compatible with underfloor heating which is perfect for many of our customers and come with a lifetime residential guarantee. Both the wood and stone designs are easy to clean and extremely durable, making them ideal for homes with children and pets!"

The Knight Tile Wood Collection is ideal for the growing trend to match designs 'room to room' in open plan spaces and separate living areas. Knight Tile Wood also has smaller plank sizes that can be perfectly placed alongside the matching full length plank and laid in an on-trend herringbone or block design to bring style and interest

to any room. With a variety of design strips and borders available you can completely personalise your space.

The Knight Tile Stone Collection offers a wide range of designs from a modernistic slate stone look to the warm tones and intricate pattern details of limestone, all of which boast the appeal of natural stone but with a warmer, more tactile surface. This stone collection is the ideal flooring choice if you love the look of stone, but not the coldness underfoot!

Karndean also have the fabulous Opus Wood and Stone ranges, which feature some of the largest plank and tile sizes available on the market. With the combination of an extensive range of tones and mix of surface finishes you can achieve a sense of simplicity and visual space whatever your colour scheme. The Stone collection is waterproof and stands up to spills without swelling, cracking or warping when wet.

Vicky concluded, "With a vast choice of colours, patterns and sizes from the Karndean collections you can define your space and create an environment of modern and rustic styles which will captivate any visitor!"

The Gainsborough team were thrilled to have won an award for the best stand display at the recent Royal Lancashire Show. Here's a picture of their fabulous display. ■
